

## **CSR-610 “AQUA STAIN”**

### **WATER-BASED SUPER-PENETRATING ACRYLIC STAIN**

#### **DESCRIPTION**

CSR-610 AQUA STAIN is a premixed water-based, ‘super penetrating’ acrylic stain in a “ready-to-use” formulation of a high quality butyl acrylic copolymer. Additional modifiers are incorporated to enhance the durability of the acrylic solids and provide ease of application as a penetrating sealer over acrylic-modified concrete overlay systems (i.e. CenturyStone Concrete Coatings) or over clean bare concrete.

#### **TYPICAL USES**

CSR-610 AQUA STAIN is an integral component in the CenturyStone Decorative Concrete Systems.

As a stand-alone stain the CSR-610 AQUA STAIN has excellent penetrating properties and is suitable over a newly installed concrete overlays or properly prepared bare concrete surfaces. CSR-610 AQUA STAIN is a clear base suitable for pigmenting with a variety of color mediums and also comes in 8 premixed colors.

#### **METHODS OF APPLICATION**

CSR-610 AQUA STAIN is a ready-to-use product that can be applied by roller, brush, broom or industrial sprayer or other methods suitable for staining.

#### **PRIMARY FEATURES of CSR-610 AQUA STAIN**

- Deep penetrating stain
- Available in Clear-Base and 8 colors
- Compatible with acrylic-based products
- Minimal drying time
- Suitable for interior or exterior
- Good abrasion resistance
- Good chemical resistance

#### **APPLICATION INSTRUCTIONS**

##### **DO NOT DILUTE**

Use a clean roller, brush, broom or an industrial sprayer.

To achieve desired look, spray stain in varying degrees of intensity and color. Minimal puddling may result in a more intense color sequence. **AVOID EXCESS PUDDLING OR FLOODING** of stain over large areas.

Apply CSR-610 AQUA STAIN to properly prepared, clean surfaces.

Do not install at ambient temperatures below 50 degrees F.

#### **COVERAGE**

300-500 SF/gallon.

#### **PACKAGING**

5-gallon bucket  
Pallet (36 buckets)
